

## Pre-Audit Checklist

Before CEC visits your home, we ask that you take a little inventory. These details will give us a place to start when conducting an energy audit. We will build upon these questions to provide you a more complete home audit.

- ✓ **What type of home do you live in?**
- ✓ **What structures, other than the home, are serviced by your meter?**
- ✓ **How many people are in your home?**
- ✓ **Heating and Cooling:**
  - What is your heating source (Electric, Gas, Propane, Heating Oil, Pellet Stove)?
  - What kind of heating system do you have?
  - Do you use any space heating?
  - How do you cool your home?
- ✓ **Water heating:**
  - What kind of tank do you have (Electric, Gas, Propane)?
  - What is the hot water temperature on your tank?
- ✓ **Insulation:**
  - What type of insulation is in your attic?
  - What type of insulation is in your walls?
  - What type of insulation is in your floors (if applicable)?
- ✓ **How many of the following items does your home have?**
  - Refrigerator
  - Freezer
- ✓ **Which of the following do you have?**
  - Dehumidifier
  - Fireplaces
  - Pool/Hot Tub
- ✓ **What upgrades have you made in the last 3 years?**
- ✓ **What upgrades do you plan to make in the next year?**
